

PADI SPECIALTIES

Specialty	Dives*	Days	Price
<p>Deep Diver</p> <p>The deep specialty course consists of knowledge development and 4 open water dives. You will learn special techniques for deep diving including correct descents and ascents, allowing for differences at depth, a deeper understanding of nitrogen narcosis and decompression sickness and also safety and emergency procedures. You will also work on your navigation skills at depth. The deep diver specialty will qualify you to dive to a maximum of 40m.</p>	4	2	฿8,500
<p>Wreck Diver</p> <p>The wreck diver specialty course consists knowledge development and 4 open water dives. You are introduced to the use of a reel, equipment considerations and techniques for entering wrecks. You will also learn how to research and learn background information on your favourite wreck. You will learn special techniques to dive on wrecks including being aware of and avoiding possible hazards. On the last dive of the course you also learn the first steps for wreck penetration and get to dive inside a wreck!</p>	4	2	฿8,500
<p>Enriched Air Diver</p> <p>The enriched air specialty consists of 3 sections: knowledge development, tank analysis and 2 open water dives. During this course you will learn the benefits of using enriched air including longer no decompression times and shorter surface intervals. You will also complete 2 dives using enriched air , unless you choose the dry course option.</p>	2	1	฿7,500
<p>Underwater Navigator</p> <p>The underwater navigation specialty course consists of knowledge development and 3 open water dives. It is one of the most useful specialty courses that you can do. Excellent navigation skills can make your diving much more enjoyable, less stressful and eliminate long surface swims. On this course you will practice compass and natural navigation to hone your underwater navigation skills.</p>	3	2	฿7,000
<p>Peak Performance Buoyancy</p> <p>The peak performance buoyancy specialty course consists of knowledge development and 2 open water dives. During this course you will practice and develop your buoyancy skills with fun exercises. Buoyancy is paramount to everything you do underwater, will improve your air consumption and ultimately make your diving more enjoyable!</p>	2	1	฿5,500

*Any adventure dive that you have completed during your Advanced Open Water Course can be credited toward the according specialty. The number of dives can therefore be reduced by 1 and the price discounted by THB 1,000.

<p>Digital Underwater Photographer</p> <p>The digital underwater photography specialty course consists of knowledge development and 2 open water dives. You will learn techniques to take great photos underwater using the various settings and functions on your camera and thinking about the composition. To do this specialty you will need your own digital underwater camera with manual white balance function or you can rent one at our dive shop.</p>	2	1	฿5,500
<p>Night Diver</p> <p>The night diver specialty course consists of knowledge development and 3 open water night dives. As we run night dives every second day, you will need 6 days to complete the course. The night specialty diver course introduces you to the unique and exciting experience of diving a night. You will practice some navigation exercises in the dark and observe marine life and their different behaviours. You will also learn procedures to set up safety equipment.</p>	3	6	฿7,000
<p>Underwater Naturalist</p> <p>The underwater naturalist specialty course consists of knowledge development and 2 open water dives. You will learn more about the local environment including the variety of vertebrates, invertebrates and plants that are common to our dive sites.</p>	2	1	฿5,500
<p>Diver Propulsion Vehicle</p> <p>The diver propulsion vehicle specialty course consists of knowledge development and 2 open water dives. It is one of the most fun courses that you can do as DPVs offer a thrilling way for scuba divers to see a lot of underwater territory in a short amount of time. They scoot you through the water allowing you to glide over reefs or buzz around a large wreck. They are a great way to see more and have fun doing it.</p>	2	1	฿7,300
<p>Search & Recovery Diver</p> <p>The search and recovery specialty course consists of knowledge development and 4 open water dives. During this course you will learn various techniques for searching for lost objects using a variety of search patterns underwater. You will also learn to use a lifting device including how to rig it to recover large or heavy objects. This course will teach you some really useful skills that you can put into practice afterwards.</p>	4	2	฿8,500

*Any adventure dive that you have completed during your Advanced Open Water Course can be credited toward the according specialty. The number of dives can therefore be reduced by 1 and the price discounted by THB 1,000.

PADI SPECIALTIES

Specialty	Dives*	Days	Price
<p>AWARE Fish Identification</p> <p>The AWARE fish identification specialty course consists of knowledge development and 2 open water dives. You will learn how to best identify characteristics of local fish families/species as well as fish survey techniques and strategies. Your instructor will also introduce you to Project AWARE activities that can help protect aquatic life</p>	2	1	฿5,500
<p>AWARE Coral Reef Conservation</p> <p>The AWARE coral reef conservation specialty course consists of a classroom session where you will learn how coral reefs function and the complex nature of life on a reef. Your instructor will teach you, why coral reefs are so important, why many coral reefs are in serious trouble and what you can do to prevent further decline. You will find out how Project AWARE unites divers and water enthusiasts to make a difference.</p>	-	1	฿3,000
<p>AWARE Shark Conservation</p> <p>The AWARE shark conservation specialty course consists of a classroom session where you will learn about the value of sharks and what is causing the rapid loss of shark populations. Sharks are crucial to marine ecosystems, yet sharks are in a global decline. Help them by educating yourself and others!</p>	-	1	฿3,000
<p>Emergency Oxygen Provider</p> <p>The emergency oxygen provider specialty course consists of knowledge development and training exercises. You will learn about dive injuries, different types of emergency oxygen equipment and safety considerations when using oxygen. Then you will practice assembling and disassembling of emergency oxygen equipment, deploying a non-rebreather mask and a demand inhalator valve on a breathing diver and using a pocket mask on a non-breathing diver. Knowing how and when to use emergency oxygen is a great skill to have and means you're ready to help others should the need arise!</p>	-	1	฿4,000
<p>Equipment Specialist</p> <p>The equipment specialist course consists of knowledge development and practical exercises. During this course you will learn about routine care and maintenance procedures as well as equipment storage recommendations. Your instructor will show you how to overcome some common equipment problems and teach you more about how your gear works, making you more comfortable with it and better prepared to take care of your investment.</p>	-	1	฿3,000

*Any adventure dive that you have completed during your Advanced Open Water Course can be credited toward the according specialty. The number of dives can therefore be reduced by 1 and the price discounted by THB 1,000.
